

To all UAW members,

On behalf of all below undersigned leaders from the Heavy Truck Division, we would like to show our support for President Ray Curry. We urge you to cast your vote for Ray.

Ray Curry is a heavy truck builder himself; he started his career at Freightliner on the plant floor like we all have. He has worked his way up starting in his local union, to his current position as President. He is the first ever President from the Heavy Truck Sector and maintained his status as the Director of Heavy Truck Department. He has been instrumental in directing and leading the Heavy Truck dept in Detroit that we all fall under. He wasn't part of the corruption that happened, he helped get rid of all the corrupt officials out of office when he was Secretary Treasurer.

Ray always has our back and is always fighting for us. In our line of work, the EPA is always trying to put restrictions on heavy duty trucks. If we don't have Ray there fighting for us, we possibly could be laid off looking for jobs like we were years ago. You will not find another leader that works as hard as Ray.

Ray has our back and now its time for us to have his!

In Solidarity,

Heavy Truck Leadership

Daimler-Freightliner, Mack, Navistar and Volvo
